

Healthy Pet Vaccination Schedule:

Puppies/Dogs

Age of first Vaccination Appointment	First Vaccine	Re-Vaccinate	Second Vaccine	Re-Vaccinate	Third Vaccine
6 Weeks	DHPP*	10 Weeks	DHPP	14 Weeks	DHPP Rabies
7 Weeks	DHPP	11 Weeks	DHPP	15 Weeks	DHPP Rabies
8 Weeks	DHPP	12 Weeks	DHPP	16 Weeks	DHPP Rabies
9 Weeks	DHPP	13 Weeks	DHPP	17 Weeks	DHPP Rabies
10 Weeks	DHPP	14 Weeks	DHPP Rabies		
11 Weeks	DHPP	15 Weeks	DHPP Rabies		
12 Weeks	DHPP	16 Weeks	DHPP Rabies		
Older than 12 Weeks	DHPP	2 – 3 Weeks after first vaccination	DHPP Rabies		

BOOSTER VACCINATION: booster vaccinate both DHPP and Rabies 1 year after last vaccination, then BOTH DHPP and RABIES are good for THREE years.

Kennel Cough (Bordetella): vaccinate dogs that are boarded in kennels or have frequent exposure to other dogs (dog parks, obedience classes, etc.). Re-vaccinate annually. Note: many kennels also require annual DHPP.

We do NOT recommend routine vaccination for Corona Virus, Leptospirosis, Giardia, or Lyme's Disease. Ask our veterinary staff for more information.

DHPP: the vaccine which includes Distemper Virus, Infectious Canine Hepatitis Virus (Adenovirus), Parainfluenza Virus, and Parvo Virus.
